Modular **CNC** Doors

*Only the best machinery
& tooling are used to
manufacture Modular
CNC Doors.*

1/ All doors are made using Machine Grade MR MDF Satin material.

2/ All profiles available on 18mm & only selected profiles available on 16mm board

3/ Door stiles are locked in at 60mm and cannot be changed due to the automation process.

4/ 2mm pencil rounds on all styles 2, 3 and 4 doors.

5/ We will hinge bore all doors using our Blum machine.

6/ We will be drilling all drawer fronts for hardware on our new Blum machine.

7/ Drawer banks will be done as individual drawers only. The middle drawer(s) will have stiles of 30mm top and bottom.
